

Paris, France, for release on 12 2007

Pierre d'Imbleval, Chief Information Officer & Frederic Fougerat, Communications Director

Geoservices* (Oilfield Services Company – Mud Logging, Well Intervention & Field Surveillance - 4,600 employees in 53 countries) appointed Pierre d'Imbleval as Chief Information Officer since July 2007 and Frederic Fougerat as Communications Director in December 2007.

Pierre d'Imbleval has over 15 years of experience as Chief Information Officer, notably at the French National Audiovisual Institute and at Steelcase International. Pierre d'Imbleval is also a member of the Geoservices executive committee.

Frederic Fougerat has more than 20 years of Communications experience and has held management positions in various public and private sectors, including TV and radio, French Parliament, and Vedior, World Human Resources group. Frederic Fougerat, who was Sustainable Development Manager for Vedior in France, also becomes Sustainable Development Manager for Geoservices.

(*) About Geoservices:

Geoservices provides a range of oil field services that help evaluate hydrocarbon reservoirs and optimize field exploration, development and production. It serves oil and gas companies worldwide through a network of bases in 53 countries, covering all the main areas where oil or gas is to be found. Its services include Mud Logging (world leader), Well Intervention and Field Surveillance.
